ABOUT AIPnD

AIPnD, or "Associazione Italiana Prove Non Distruttive" (Italian Association of Non-Destructive Testing), is a professional association based in Italy dedicated to the promotion, advancement, and dissemination of knowledge and practices related to non-destructive testing (NDT). Founded in 1979, AIPnD serves as a focal point for professionals, researchers, academics, industry experts, and practitioners involved in the field of NDT within Italy.

AIPnD aims to promote the use and adoption of non-destructive testing techniques across various industries and sectors:

The Association organizes workshops and conferences to educate and disseminate knowledge about NDT methodologies, technologies, standards, and best practices.

AIPnD is founder of CICPND, The National Certifications Body for non-destructive testing.

Furthermore, the Italian Society for Non-Destructive Testing Monitoring Diagnostics (AIPnD) and International Atomic energy agency (IAEA) signed Practical Arrangements, establishing a framework for cooperation in the application of non-destructive testing (NDT). Furthermore, AIPnD works closely with the European Federation for Non-Destructive Testing (EFNDT).

What to SEE in VERONA and surroundings

ABOUT THE DESTINATION

Verona, one of Italy's oldest and most beautiful cities, holds a special place in the heart of the Veneto region. Situated adjacent to Lake Garda, gracefully nestled at the base of the Venetian Pre-Alps, and bordered by the tranquil Adige River, Verona boasts a captivating panorama and an abundance of cultural treasures that capture the imagination.

Verona, captivates with two iconic symbols that tell tales of past glories and ethereal passions: the imposing Arena di Verona and Juliet's House.

The **Arena di Verona**, majestic in its splendor, dominates Piazza Bra, bringing with it the splendor of ancient Rome and offering a privileged glimpse into the grandeur of a bygone era.

On the other hand, **Juliet's House** adds a touch of romance and literary charm to the city. Despite its connection to Shakespearean characters, the real story of the Capuleti family's residence adds depth to its magnetism. The courtyard and balcony, immortalized in literature, evoke the timeless tale of love and tragedy, capturing the imagination of visitors from around the world.

Together, these iconic landmarks encapsulate the essence of Verona's history and cultural heritage, inviting visitors to immerse themselves in its rich legacy and romantic allure.

ABOUT THE DESTINATION

Near Verona, visitors can also explore the stunning Lake Garda and the enchanting city of Venice and the charming Prosecco wine region.

Lake Garda, Italy's largest lake, offers breathtaking scenery with its crystal-clear waters, charming lakeside towns, and picturesque landscapes. Visitors can enjoy various activities such as boat trips, water sports, and leisurely strolls along the promenades.

Venice, known as the "Floating City," is a masterpiece of art, architecture, and history. Its network of canals, magnificent palaces, and iconic landmarks like St. Mark's Basilica and the Rialto Bridge make it a must-visit destination. Visitors can wander through the narrow alleys, take romantic gondola rides, and immerse themselves in the unique atmosphere of this captivating city.

The Prosecco wine region, located north of Venice, offers a delightful excursion for wine enthusiasts. This area is renowned for its picturesque vineyards, charming villages, and of course, its sparkling Prosecco wine. Visitors can explore the vineyards, taste the delicious wines, and learn about the production process while enjoying the stunning countryside scenery.

Around 120 km far from Verona we find the **Italian Motor Valley**, an industrial and cultural district located in Emilia-Romagna, known worldwide for being the homeland where some of the most important automobile and motorcycle industries in the world are based.

In the opposite direction we find the metropolis of **Milan** (around 150 km of distance), a leading alpha global city, with strengths in the fields of art, chemicals, commerce, design, education, entertainment, fashion, finance, healthcare, media (communication), services, research and tourism.
