

16 JUNE

09.20-09.50

CGM: "Magnetic Testing State of the Art".

Overview of the latest technologies applied to the magnetic particle inspection. Magnetizing techniques, remote inspection and AI supporting features

Michele Burej, 3° Liv. MT; PT Camilla Fahlström, CEO Labino AB; Alastair Woolven, International Sales Manager Labino AB

09.50-10.20

ADG NDT SOLUTIONS: The Evolution of Safety in Industrial Gamma Radiography

Chris Uriarte, Vice President of Sales QSA

09.50-10.20 Coffee break

11.20-11.50

SMART NDT: Automated Inspection with Non-Contact Laser-Excited Ultrasound

Tobias Hötzer, Senior Project Manager XARION Laser Acoustics GmbH

11.50-12.20

TPAC: Adaptive FMC/TFM in Immersion UT

Jeremy GAUMER, UT Application Specialist TPAC

12.20-14.00 Lunch

14.00-14.30

EVIDENT SCIENTIFIC: Making Eddy Current Array Accessible

Michael Barbeyrol, Senior Product Leader

14.30-15.00

WAYGATE TECHNOLOGIES: Beyond the Image: Turning Visual Inspection into Actionable Intelligence with Mentor Zoom

Florian Hanselmann, Regional Sales Manager Waygate Technologies

15.:00-16.00 Coffee break

16.00-16.30

GILARDONI: Innovation in Inspection: Automatic Defect Recognition (ADR), Radioscopy and Computed Tomography

Alberto Anzani, Tomography Specialist R&D N.D.T. GILARDONI S.p.A

16.30-16.50

BYTEST TÜV SÜD GROUP: Industrial applications of NDT, On Field Non -Destructive Testing Solutions

Davide Trova, Sales Manager Bytest TÜV SÜD Group Italy

17 JUNE

09.20-09.40

FARO CREAFORM: 3D Scanning-Based FEA for Dent Assessment in Oil and Gas Pipelines

Roberto Usaj, Field Application Engineer Ametek FARO Creaform division

09.40-10.00

NDT ITALIANA: NDT Italiana: Safety and Productivity for your Non Destructive Testing

Michele Cevenini, CEO of NDT Italiana

10.00-10.20

HAMAMATSU PHOTONICS: A total solution for X-ray NDT: From source to sensor, high resolution and AI-denoising

Sara Ziliani, sales engineer of Hamamatsu Photonics Italia

10.20-11.20 Coffee break

11.20-11.40

BYTEST TÜV SÜD GROUP: Aerospace NDT Applications, Non-Destructive Testing in Aerospace Applications

Davide Trova, Sales Manager, Bytest TÜV SÜD Group Italy

11.40-12.10

CGM: "Penetrant Testing State of the Art".

Overview of the latest technologies applied to the penetrant liquid inspection. Line automation, data control, inspection reports. Green penetrant liquids overview

Michele Burej, 3° Liv. MT PT; Camilla Fahlström, CEO Labino AB; Alastair Woolven, International Sales Manager Labino AB

12.20-14.00 Lunch

14.00-14.30

SMART NDT: A digital elastomeric sensor applied to 3D surface inspection

Thierry Mantel, Chief Business Officer Gelsight, Inc.

14.30-15.00

TPAC: Advanced ultrasonic imaging methods for weld inspection and thickness measurement

Nans Laroche, Research Engineer PhD in Ultrasonic Imaging TPAC

15.00-16.00 Coffee break

16.00-16.20

DIMART: Transforming legacy RT workstations into smart & efficient AI-powered platforms

Alon Fleider, VP R&D and CTO Vidisco Ltd.

18 JUNE

09.20-09.50

CARL ZEISS: Next Generation X Ray CT Innovations Transforming Industrial Inspection

*Valentina Aloisi PhD, Head of Product Management X-Ray
Carl Zeiss Industrielle Messtechnik*

09.50-10.20

GILARDONI: In-Line X-Ray NDT: Enhancing Inspection with Real-Time Defect Detection

*Alessio Colombo, Product and Sales Manager NDT
GILARDONI S.p.A*

10.20-11.20 Coffee break

11.20-11.50

EVIDENT SCIENTIFIC: Making Eddy Current Array Accessible

Michael Barbeyrol, Senior Product Leader

11.50-12.20

SMART NDT: The new frontier in CT Inspection Services with 9Mev Linear Accelerator, now available for the European market needs

*Luca Marta, General Manager, Smart Ndt srl; Paolo Passoni,
Managing Director TCM Tomography Center Milano Srl.*

12:20-14:00 Lunch

14.00-14.20

BYTEST TÜV SÜD GROUP: Material Testing for Industry, Material Testing Laboratory for General Industries

*Gaetano Lapicciarella, Sales Area General Industry/Automotive
Bytest TÜV SÜD Group Italy*

14.20-14.40

THERMO FISHER SCIENTIFIC: Latest developments in Positive Material Identification technologies

Pedro Machaqueiro, Sales & Marketing Manager Thermo Fisher Scientific

14.40-15.00

DR-SYSTEMS: AI-powered weld image evaluation from detection to final report

Mikhail Berdnikov, Regional Director Asia-Pacific Dr Systems

15.00-16.00 Coffee break

16.00-16.30

WAYGATE TECHNOLOGIES: Remote assistance for customers.

Live demo: AR Remote Assist for UT Testing machines
Speaker

Dania Al-Hakim, Waygate Technologies Huerth, Germany

16.30-16.50

EDDYFI TECHNOLOGIES: NDT instrument System Performance Verification to improve confidence in the field

Paul Hillman, Product Manager Eddyfi Technologies

19 JUNE

09.20-09.40

TPAC: High-end TFM application for an Inline Steel Bar Testing Machine and Full-Phased Array application for an Inline Steel Plate Testing Machine

Mr Yao Jidong, Chief Engineer of NISCO JINYU

09.40-10.00

NORDINKRAFT: Integrated UT + EC inspection systems for plate and strip products - simultaneous test for hard spots and laminations

Andrej Kirikov, President Nordinkraft AG

10.00-10.20

BYTEST TÜV SÜD GROUP: Aerospace Maintenance and Inspection, NDT Solutions for Aerospace Maintenance

Gianluca Mina, Sales Area Aerospace Bytest TÜV SÜD Group Italy

10.20-11.20 Coffee break

11.20-11.50

SMART NDT: NDT and Drones: Redefining Access and Digital Inspection Workflows

*Luca Marta, General Manager Smart Ndt srl; Paolo Passoni,
Managing Director TCM Tomography Center Milano Srl*

11.50-12.20

CARL ZEISS: Accelerating Industrial Excellence: Advanced Digital Radiography and X Ray CT for High Throughput NDT

Enrico Soldati PhD, Product Sales Manager Carl Zeiss X-Ray Technologies
