

Full Paper Submission is now open for “Structural Health Monitoring”

We are pleased to announce that the full paper submission period is now open for **Structural Health Monitoring**, a peer-reviewed journal published by SAGE:

<https://journals.sagepub.com/home/SHM>

This submission option is reserved only for manuscripts **presented** during the ECNDT 2026 conference.

ECNDT Authors interested in publishing their full paper in **Structural Health Monitoring** are invited to prepare their manuscripts in line with the **Aims and Scope** of the Journal:

When submitting a manuscript at:

<https://mc.manuscriptcentral.com/shmij>

Authors are required to select the article type option **Special issue – ECNDT 2026**:

* Type

CHOICE	TYPE
☐	Original Research Article
☐	Review
☐	Editorial
☒	Special issue – ECNDT 2026

and **write explicitly** in the cover letter that the manuscript has been presented during the ECNDT 2026 conference.

Full paper submission deadline: 15 September 2026

Publication costs are **free** unless the **open access option** is selected. Authors opting for open access are **responsible** for covering the full publication costs. ECNDT 2026 **will not cover any publication costs**, either in full or in part.
