CONSIGLIO NAZIONALE DEGLI INGEGNERI
21/07/2020 U-rsp/5122/2020

SUBJECT: Italian candidacy for the 2024 edition of the WCEE World Conference on Earthquake Engineering – CNI endorsement for the city of Milan.

Dear Professor Nakashima,

as you know, Italy presented its candidacy to host the 2024 edition of the WCEE World Conference on Earthquake Engineering.

The CNI - Consiglio Nazionale degli Ingegneri (Italian Council of Engineers) is the institutional national body representing the professional category of the Italian engineers. CNI is a non-economic public institution, established in 1944 and placed under the supervision of the Ministry of Justice, that monitors the professions and controls the adoption of the provided regulations.

We would be very happy if Italy's candidacy was accepted, and more specifically if the proposal of CROIL (Regional Council of Engineers Orders of Lombardy) to be able to carry out the Conference in the city of Milan was accepted.

Lombardy and the city of Milan are notoriously at the forefront of innovation and research in the field of engineering, and thousands of professionals specialized in structural engineering work there, with particular reference to anti-seismic aspects.

Hoping to meet you in Milan, we thank you and send our kind regards

Ing. Angelo Valsecchi
(Councillor Secretary)

Ing. Armando Zambrano
(President)
